Summary

Results-driven UI Developer with 8 months of professional experience at Spritle Software. Proficient in building dynamic and user-friendly web interfaces using HTML, CSS, JavaScript, and ReactJS. Adept at creating responsive and visually appealing designs, collaborating with teams, and delivering seamless digital experiences.

Skills

- HTML
- CSS
- Bootstrap
- Tailwind CSS
- Javascript
- Reactjs
- Chrome devTools

Experience

Spritle Software   **May 2024 – Present**
UI Developer   *Chennai*

- Built dynamic and user-friendly web applications using ReactJS, HTML, CSS, Tailwind CSS, and JavaScript.
- Enhanced website performance by reducing load times and ensuring cross-browser compatibility.
- Worked with designers to translate Figma designs into functional UIs and integrated APIs with backend teams.
- Explored ways to visualize and send a daily report of test results to team members using HTML, Javascript, and CSS.
- Resolved UI issues, conducted testing for device compatibility, and maintained code quality through reviews.

Projects

CQUE.AI | *Reactjs, Tailwind CSS, Magic Ui*   **Spritle Software**

- Developed a fully responsive and visually appealing user interface using ReactJS and Tailwind CSS, ensuring optimal performance across all devices.
- Utilized ReactJS to build reusable and modular UI components, streamlining the development process and ensuring consistency across the application.
- Applied Tailwind CSS for efficient and custom styling, ensuring a clean and maintainable design system that meets modern web standards.
- Implemented Magic UI to enhance the application's visual elements, leveraging its pre-designed components for faster development while maintaining a polished, user-friendly experience.

Haleon | *HTML, CSS, Bootstrap, Javascript*   **Spritle Software**

- Designed and developed the admin product page using HTML, CSS, and Bootstrap to manage product listings, ensuring an intuitive and user-friendly interface for admins to add, edit, and remove products.
- Built the order management page with JavaScript for real-time updates, enabling admins to view, filter, and manage customer orders effectively.
- Used Bootstrap's grid system to structure and organize the pages, ensuring an efficient and easy-to-navigate interface for administrators.
- Incorporated JavaScript for interactive elements like order status updates, pagination, and product search filters, providing dynamic content management capabilities for the admin panel.
