

NAVANEETHAN KV

Front-End Developer

📞 6380939303 ✉ navaneethanvs18@gmail.com 🔗 LinkedIn 🐙 Github 🌐 Portfolio

Summary

Front-End / UI Developer with 2+ years of experience building responsive, high-performance web applications using JavaScript, TypeScript, HTML5, CSS3, Angular, React.js, Next.js, and Tailwind CSS. Skilled in REST API integration, component-driven architecture, and state management, translating designs into clean, maintainable, and scalable user interfaces. Experienced collaborating with designers and back-end teams to deliver polished, production-ready UI.

Skills

Technologies: HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, Angular, React.js, Next.js

Front-End Tools: Responsive Web Design, Chrome DevTools, UI/UX Principles, REST API Integration

Developer Tools **Version Control:** VS Code, Git, GitHub, Antigravity

Experience

Associate Software Analyst

March 2025 – Present

Agilysys Technologies India Private Limited

Chennai

- Work as part of the front-end team building **Stay**, an end-to-end hospitality product for Marriott Hotels covering the complete guest and booking lifecycle, developed using **Angular 16**, **TypeScript**, and **JavaScript**.
- Develop new front-end features for the **BRM** module, translating hotel-management business requirements into reusable UI components.
- Debug and fix reported bugs and UI issues, ensuring stability and consistency across the product's front-end codebase.

UI Developer

May 2024 – Feb 2025

Spritle Software

Chennai

- Developed and optimized interactive, responsive, and user-friendly web applications using **React.js**, **HTML**, **CSS**, **Tailwind CSS**, and **JavaScript**.
- Improved website performance by optimizing assets, reducing load times, and ensuring seamless cross-browser and device compatibility.
- Translated **Figma designs** into high-quality, pixel-perfect UI components while collaborating closely with designers and backend developers.

Projects

STAY | *Angular, Tailwind CSS, Typescript, Next.js*

Agilysys IDC

- Contributing to Stay, an end-to-end hospitality platform for Marriott Hotels that manages the complete guest journey from booking to checkout.
- Building front-end features for the BRM module, converting hotel-management business requirements into reusable, production-ready UI components.
- Working within a large-scale Angular codebase alongside cross-functional teams to deliver features for a live, enterprise hospitality product.

DevFolio | *Nextjs, Reactjs, Typescript, Magic Ui* **Visit Live**

Personal Portfolio

- Built a personal portfolio (navaneethan.vercel.app) using React and Next.js, featuring smooth animations and a fully responsive layout across devices.
- Integrated Magic UI for polished, pre-designed visual components, speeding up development while keeping the interface clean and user-friendly.
- Deployed and hosted on Vercel, optimized for fast load performance.
